We have examined the books and accounts of St. Luke's Hospital for the year ending December 31, 1928, and certify that the foregoing Balance Sheet and accompanying Statement of Income and Expenditure have been properly prepared from the books and, subject to the omission of a specific provision for depreciation of the Hospital Buildings since 1912, in our opinion, fairly set forth the financial position of the Hospital as at December 31, 1928, and the result of the operations for the year ending on that date.

During the year 1928 more serious attention has been given to the actual clinical opportunities available for the students. This has resulted in a well balanced experience in all departments of the hospital. Ward clinics have been consistently conducted in many departments affording excellent opportunities for observation on the part of the students. By more closely correlating the theory and practice of nursing in its various phases the nursing care of patients in St. Luke's Hospital has been rendered more efficiently.

The interest shown and assistance given by the Woman's

Board is greatly appreciated. A beautiful piano given last spring was placed in the recreation room and has been a source of enjoyment for individual nurses as well as large groups when parties or receptions were held.

Two senior students attended the meetings of the American Nurses Association held in Louisville last June. The reports given on their return were enthusiastically received by their fellow students.

A scholarship in Nursing Education for the summer course given at the University of Chicago was offered to a graduate of St. Luke's Hospital by the Woman's Board. Miss Sara Warner was selected to enroll for the course, later returning to the nursing staff in a teaching capacity. Such encouragement is far reaching in its influence.

We desire to express our sincere appreciation to the President of the Board of Trustees and to those members of the Woman's Board who have so constantly and willingly assisted in the social welfare of the nurses.

The members of the graduating class of 1928 demonstrated their interest in the welfare of their fellow nurses by presenting the Nurses Infirmary with attractive dishes and glassware as well as several comfortable chairs.

An Inter-Collegiate Branch of the Young Women's Christian Association of Chicago has been organized among the student nurses with a rapidly growing membership. Interesting meetings, parties and picnics have been held during their first year.

The nursing staff have conducted very profitable meetings one evening each month at which time interesting talks were given by some member of the medical or nursing staff. A social hour followed each meeting.

We are very appreciative of the cooperation of various members of the Medical Board for the lectures given in the various clinical courses and also for their kindly attention to all nurses when ill.

ADA REITZ CROCKER.

Director of Nursing.

HENRY BAIRD FAVILL LABORATORY REPORT

The Henry Baird Favill Laboratory of St. Luke's Hospital has been organized and developed for completing promptly and accurately the routine examinations for patients in the Hospital, and for increasing its efficiency and usefulness by engaging in original investigations, the pursuit of which increases zeal and widens our knowledge of disease. These efforts, closely linked together, make an effective organization because in the routine examinations develop many problems for research, and the results of the research find their direct application in the examinations made for patients. Just as other years have exceeded their predecessors in the amount of work accomplished by the Laboratory so also does the year 1928 outstrip its antecedents in this respect. In the following table are listed the number of routine examinations and their kinds completed during the year 1928:

Red and white blood counts; hemoglobin estimations	29,639
Blood coagulation tests	483
Differential blood counts	1,217
Gastric analyses	928
Stool analyses	2,533
Urinanalyses	23,173
Bacterial examinations	6,229
Widals	88
Blood cultures	419
Milk examinations	253
Typhoid and autogenous vaccines released (for last 8 months).....	161
Guinea pig autopsies (for last 7 months)....	100
Wassermann tests	2,355
Spinal fluid examinations	287
Blood compatibility tests	145
Chemical examinations	4,518
Postmortem examinations	174
Surgical specimens	4,586
TOTAL.....	77,288

Dr. A. P. Locke, the Seymour Coman Fellow in Medicine appointed through the Chemistry Department of the University of Chicago and Miss Edna Main, the Charles H. Schweppe Fellow, have continued their work in diphtheria and are engaged in determining certain chemical constitu-

ents of the bacteria, and of the toxic principle elaborated, in the hope of obtaining information concerning the composition of the toxin and the method of its action in the tissues of a patient.

Dr. Paul J. Breslich was appointed the John Jay Borland Fellow in Medicine on December 1, 1928. Dr. Stanley Crowe, his predecessor, was obliged to leave on account of illness. He and Dr. Warner S. Bump have reported the results obtained experimentally in the surgical repair and healing of severed or torn ureters.

The Winfield Peck Memorial Fund administered through Dr. Joseph A. Capps has been available again for use in the Laboratory and with it a number of studies in bacteriology and pathology were completed. The photomicrograph apparatus has aided greatly the preparation of illustrations for manuscripts and records. Valuable additions to this equipment were made possible by a donation from Mr. A. B. Kuppenheimer.

Recently through the generosity of Dr. Louis Schmidt a fellowship in Urology was established in the Laboratory. Dr. Frank M. Cochems was appointed.

The Hospital Library has continued in growth and organization. While progress has been made in completing files, there are a number of others incomplete, which when entire will add much to the usefulness of the Library. We regret to note the death of Miss Grace Enos, the Librarian. Her place has been taken by Mrs. Josephine Miller.

Although research work is supported in the Laboratory, there is abundant opportunity for extension of this work. We hope that additional support by endowments or fellowships will further the investigations of this department.

We again acknowledge gratefully the kindly support and encouragement from friends of the Laboratory.

THE CHAPLAIN'S REPORT—1928

To the Board of Trustees,
St. Luke's Hospital,
Chicago.

There is nothing of unusual interest to record in the Chaplain's Report for 1928. Indeed, the average annual report might well cover any year.

The customary round of duty has been maintained, the intention being to see each patient weekly, and more frequently where special request has been made. Obviously, in as large a hospital as St. Luke's, Chicago, where the Chaplain is also Rector of Grace, in which parish the hospital is situated, more than this is not possible. Brief as such calls have been, however, evidences of appreciation from the patients have been many.

At this writing, when the new Grace Church is nearing completion and parish interests are likely to make increasing and rightful claim, it is not difficult to foresee that unless the clerical staff is augmented the Chaplain's visits in the near future must of necessity be confined very largely to patients belonging to the Episcopal Church and to responding to special sick calls irrespective of the source from which they come. It may not be as fully realized as it ought to be, but the fact remains that very many patients express themselves as thankful that there is a resident Chaplain and a chapel within the hospital.

No annual report from the Chaplain would be complete without a word of grateful recognition on his part of the general courtesy and helpful co-operation of the internes, nurses and others which have been extended in furtherance of his work. He sincerely trusts that this may always be to the fore.

Respectfully submitted,

ROBERT HOLMES,

Chaplain.

REPORT OF PRESIDENT

To the Board of Trustees,
St. Luke's Hospital,
Chicago, Illinois.

Gentlemen :

The Woman's Board begs to submit its Annual Report.

There have been two resignations from the Board and we have elected three new members.

In order to raise money to finance our work at the Hospital a second Fashion Show was held on October 23rd at the Stevens Hotel. The net proceeds were \$33,399.15, \$1,093.76 greater than the net amount in 1927. At the January meeting Mrs. Shaw donated \$100.85 to make the amount an even \$33,500. We have voted to hold a third show in 1929 and the Stevens Hotel Ball Room has been engaged for October 22nd.

Our regular committees have carried on their work and we feel that their growth in usefulness to the Hospital is most satisfactory.

While the financing and directing of the Social Service and Out Patient Department continues to be the largest donation of the Woman's Board we have given more attention to the Training School and our student nurses than ever before.

Through our suggestion alterations and improvements were made in Stickney House and the Woman's Board refurnished the Director of Nurses' rooms.

We continue to pay the salary of the Recreational Director and through her assist in the entertainments for the nurses.

Our new Director of Nurses has accomplished much in raising the standards and getting our school properly organized. With her leadership and our backing (she cannot go alone), St. Luke's Training School can be made not only to rival but to surpass any other school. This will mean education for Board Managers and Trustees, as well as for Student Nurses.

A hospital is made up of four elements; the patient, the doctor, the nurse and the management. Lacking any one of these it cannot function and the whole is judged by the quality of the poorest element.

Now that our long cherished hope of a New Home for our Nurses seems about to be realized we feel we are standing on the threshold of a better and greater nursing service.

The Woman's Board again gave a scholarship to the University of Chicago Summer School to a student who graduated in June. She returned to the hospital and is doing splendid work. A similar scholarship is up as a prize for the girl best qualified in the 1929 class and is being worked for eagerly by the students. We have voted a \$1,200 scholarship for a year at Columbia University. We hope by these scholarships to arouse the interest of our girls and encourage them to go to higher education in the line of nursing.

The Social Service Department has increased its work during 1928. The total number of patients in the clinics was 33,000, over 7,600 more than in 1927. The gross cost of the department was \$21,378.41, less the fees collected from patients of \$6,084.95, making a net cost of \$15,291.46.

We have put on two special graduate nurses, one day and one night nurse, to care for the desperately sick Social Service patients. The Hospital is housing these nurses, while we pay their salaries. Several times during the year we have had other special graduates on duty in the wards.

We do not feel that we can take time to tell of the work of each committee in this report. Complete details will be in the year book.

In closing, the Woman's Board begs to call the attention of the Trustees to the Housekeeping Problems of the Hospital and to offer its help along these lines. Housekeeping is primarily a woman's field and it is quite possible that by not using your Woman's Board you are missing an opportunity of gaining willing co-operation and constructive assistance.

Respectfully submitted,

EMILY LYON GARY,

January 10, 1929.

President.

ADMISSION OF PATIENTS

**FOR CHILDREN UNDER 12 YEARS OF AGE \$1.00 PER DAY
THE CHARGE FOR OPEN WARD BEDS IS \$3.00 PER DAY
THE CHARGE FOR SEMI-PRIVATE BEDS IS \$4.00 AND \$5.00**

The Hospital cares for an average of about one hundred and fifty wholly free patients and will, when there are vacant beds in the open wards, receive patients whose means are limited for any sum which they may be able to pay and those without means as free patients, provided they are admissible under the rule governing the admission of patients.

Applications for the admission of patients who are unable to apply in person, must be made prior to sending them, and should be made between the hours of nine a. m. and five p. m. All promises of admission are made subject to the result of an examination, as to admissibility, on their arrival at the Hospital.

The financial status of all free or part pay patients is investigated by the Social Service Department and free treatment will not be given unless justified by the report.

Persons making application on behalf of others should be able to furnish concise information on the following points.

The nature of the disease or injury.

The duration of the disease or the date of the injury.

Present condition of the patient.

What treatment if any has been received?

ANNUAL REPORT OF THE LINEN COMMITTEE OF ST. LUKE'S HOSPITAL

1928

Madam President and Members:

The Linen Committee has this year given the Hospital 6,201 articles, costing \$2,551.51.

Besides this, we have supplied linen for the Training School of 4,691 articles costing \$2,219.59, and paid the salary of the Supervisor of Linen of \$1,500.00.

The total amount therefore given the Hospital, as shown in the attached financial report, as \$6,275.02.

We would like to thank the Emergency Committee, who so generously gave the New Drum to the Laundry Equipment and the Woman's Board for the Marking Machine; both have greatly facilitated the work of the department.

We take this opportunity to thank all those who have generously contributed to our funds and the churches and organizations who have helped make our garments.

Respectfully submitted,

MAY W. ELDRIDGE,

Chairman.

The disbursements were for entertainment, graduation exercises, lectures at University of Chicago and under the auspices of Illinois League of Nursing, and expense of two nurses attending convention at Louisville.

It is most gratifying to note the eagerness with which the nurses respond to the offers of scholarships and opportunities to attend lectures, etc.

There is marked improvement in the morale of the school with deeper realization of the responsibilities.

VOLUNTEER SERVICE REPORT

1928

The Volunteer Service within the Social Service Department has received satisfactory volunteered support and the constant, able and very effective assistance of its maintained staff.

The scope of the volunteer service is so wide that, for the unfamiliar, it should be stated that the work includes not only writing histories, taking dictation, looking up records and

aiding the doctors in the clinics, but also advising patients who, after leaving the Hospital, have returned for aid in personal or private affairs.

During the past year the facilities have been increased by the addition of one day and one night regular nurse to assist with the patients and the work of the Social Service Department and by the services of a full time assistant for filing and statistics, and an additional assistant maintained by Grace Episcopal Church and assigned to cardiac cases. Clinics have again been enlarged and were held from nine to twelve, and from one to four. The medical, surgical, gynecological, obstetrical and children's clinics, the latter including infant feeding and medical and cardiac clinics, also the orthopedic, and the ear, nose, throat and eye clinics have been held daily, while the genito-urinary diseases, neurological and skin disease clinics are held twice a week.

We wish to thank all volunteers—Miss Florence Sargent, Miss Mary J. Lake, Miss Jane Condon, Miss Paula Wilms, Miss Judith Walsh, Miss Helen M. Hurley, Miss Elaine Blackman, Mrs. E. I. Cudahy, Mrs. Edith K. Walsh, Mrs. Victor Elting, Mrs. George Rice, and Mrs. Horace Gray—for their interest, loyalty and faithful attendance.

I again wish to take the opportunity to express my appreciation to the Social Service Staff for their continued alertness in advancing the purposes of the Social Service Department and for their readiness always to lend every assistance. The work of this Staff has been characterized by tireless devotion to their many duties and has earned and received the admiration of workers and patients alike.

Miss Anna Armstrong, as leader of the staff, has again shown the greatest ability and vision in all the work of the Social Service Department and has been an inspiration to everyone with whom she has come in contact, and an example of how the many and varied duties of this service can be carried out with the greatest thought and consideration.

We desire to state to the Hospital Staff our thanks for their uniform and constructive co-operation.

Respectfully submitted,

MARGUERITE P. WATSON.

AUDITOR'S REPORT

ST. LUKE'S HOSPITAL LINEN COMMITTEE

DECEMBER 31, 1929

St. Luke's Hospital Linen Committee
Chicago, Ill.

Mesdames:

We have audited the cash transactions of St. Luke's Hospital Linen Committee as disclosed by the Treasurer's records for the year ended December 31, 1928, and have prepared therefrom the attached statement of Receipts and Disbursements and Interest received from Investments.

The income receipts for the year ended December 31, 1928, exceeded the expenses by \$4,258.72, an increase of \$5,450.65 compared with the deficit for the previous year.

A comparison of the income receipts and expenses for the two years ended December 31, 1928, is shown in the following summary:

	1928	1927	Increase *Decrease
Income:			
Donations	\$ 8,647.00	\$1,338.00	\$7,309.00
Interest	1,789.67	1,493.14	296.53
Sale of Aprons, Caps, etc.....	73.74	174.01	100.27*
Miscellaneous	100.00	145.17	45.17*
	<u>\$10,610.41</u>	<u>\$3,150.32</u>	<u>\$7,460.09</u>
Expenses:			
Salary	1,500.00	1,325.00	175.00
Material	4,775.02	3,017.25	1,757.77
Interest, etc.	76.67		76.67
	<u>\$ 6,351.69</u>	<u>\$4,342.25</u>	<u>\$2,009.44</u>
Income in Excess of Expenses.....	\$ 4,258.72	\$1,191.93*	\$5,450.65

The increase in income is primarily attributable to the fact that the 1928 receipts include two donations from the Women's Board of St. Luke's Hospital of \$4,000.00 each from the 1927 and 1928 Fashion Shows for Linen supply.

In the course of our audit we reconciled the cash in bank at December 31, 1928, with the balance on deposit at the Continental National Bank and Trust Company. We found the disbursements for the year properly supported by invoices and cancelled checks and traced all receipts recorded in the cash book to their deposit in the bank. The interest received on investments is presented in Schedule 2, as reported in the cash book, but, as in the past, we have not inspected the securities.

Yours respectfully,

EDWARD GORE & CO.
